Authors	III
Foreword	V
Preface	VII
Part One Overview	1
CHAPTER 1	
Introduction	3
1.1 Background	3
1.2 Crop Pest and Disease	4
1.2.1 Wheat Yellow Rust	5
1.2.2 Wheat Powdery Mildew	5
1.2.3 Wheat Fusarium Head Blight	7
1.2.4 Wheat Aphid	9
1.2.5 Rice Leaf Roller	10
1.2.6 Oriental Migratory Locust	11
1.3 Progress and Development	12
1.3.1 Crop Pest and Disease Monitoring	13
1.3.2 Crop Pest and Disease Forecasting	18
References	20
CHAPTER 2	
Mechanism and Method	23
2.1 Spectral Mechanism	23
2.1.1 Spectral Response of Healthy Crop	24
2.1.2 Spectral Response of Crop Pest and Disease	25
2.2 Spectral Feature Extraction	27
2.2.1 Sensitivity Analysis	27
2.2.2 Spectral Feature	32
2.3 Monitoring Method	39
2.3.1 Recognition and Differentiation Method	40
2.3.2 Severity Monitoring Method	53

2.4	Forecasting Method	58
2.4.1	Bayesian Network	58
2.4.2	Logistic Regression Analysis	60
2.4.3	Markov Chain	62
References		64

Part Two Non-Imaging Hyperspectral Remote Sensing Monitoring for Crop Pest and Disease 67

CHAPTER 3

Crop Disease Monitoring	77
3.1 Wheat Yellow Rust Monitoring	77
3.1.1 Monitoring at Leaf Scale	77
3.1.2 Monitoring at Canopy Scale	84
3.2 Wheat Powdery Mildew Monitoring	91
3.2.1 Monitoring at Leaf Scale	91
3.2.2 Monitoring at Canopy Scale	94
3.3 Wheat Fusarium Head Blight Monitoring	97
3.3.1 Monitoring at Ear Scale	97
3.3.2 Monitoring at Canopy Scale	101
References	105

CHAPTER 4

Crop Pest Monitoring	109
4.1 Wheat Aphid Monitoring	109
4.1.1 Spectral Response	110
4.1.2 Monitoring at Leaf Scale	111
4.1.3 Monitoring at Canopy Scale	120
4.2 Rice Leaf Roller Monitoring	127
4.2.1 Spectral Response	128
4.2.2 Monitoring at Canopy Scale	129
References	135

CHAPTER 5

Crop Pest and Disease Differentiation	137
5.1 Wheat Yellow Rust and Nutrient Stress	137
5.1.1 Spectral Response	137
5.1.2 Rust and Nutrient Stress Differentiation	139
5.2 Wheat Disease and Nutrient Stress	143
5.2.1 Spectral Response	143
5.2.2 Disease and Nutrient Stress Differentiation	146
5.3 Crop Pest and Disease	150
5.3.1 Differentiation at Leaf Scale	150
5.3.2 Differentiation at Canopy Scale	167
References	174

Part Three Imaging Remote Sensing Monitoring for Crop Pest and Disease	175
---	-----

CHAPTER 6

Imaging Hyperspectral Remote Sensing Monitoring of Crop Pest and Disease	189
6.1 Wheat Yellow Rust Monitoring	189
6.1.1 Monitoring at Leaf Scale	190
6.1.2 Monitoring at Canopy Scale	193
6.2 Wheat Powdery Mildew Monitoring	203
6.2.1 Spectral Response	203
6.2.2 Monitoring at Leaf Scale	205
6.3 Wheat Aphid Monitoring	209
6.3.1 Extraction of Aphid Information by Sensitive Wavebands	209
6.3.2 Extraction of Aphid Information by Spectral Index	211
6.3.3 Extraction of Aphid Information by Principal Component Analysis	212
6.3.4 Construction of Aphid Index and Extraction of Aphid Damage	214
References	218

CHAPTER 7

Multi-Spectral Remote Sensing Monitoring	221
7.1 Wheat Yellow Rust Monitoring	221
7.1.1 Monitoring at Regional Scale	221
7.1.2 Monitoring at National Scale	226
7.2 Wheat Powdery Mildew Monitoring	229
7.2.1 Monitoring with HJ Data	229
7.2.2 Monitoring with GF Data	232
7.2.3 Monitoring with Multi-Temporal Landsat Data	237
7.3 Wheat Fusarium Head Blight Monitoring	239
7.3.1 Monitoring at Regional Scale	239
7.3.2 Monitoring at National Scale	241
7.4 Oriental Migratory Locust Monitoring	246
7.4.1 Monitoring at Regional Scale	246
7.4.2 Monitoring at National Scale	251
References	258

Part Four Remote Sensing forecasting for Crop Pest and Disease	261
---	-----

CHAPTER 8

Crop Pest and Disease Forecasting with Multi-Source Data	265
8.1 Wheat Yellow Rust	265
8.1.1 Data Acquisition	265
8.1.2 Modelling and Validation	270

8.2	Wheat Powdery Mildew	274
8.2.1	Data Acquisition	274
8.2.2	Modelling and Validation	277
8.3	Oriental Migratory Locust	284
8.3.1	Data Acquisition	284
8.3.2	Modelling and Validation	287
	References	292

Part Five System and Application for Crop Pest and Disease Monitoring and Forecasting	295
--	------------

CHAPTER 9

Crop Pest and Disease Monitoring and Forecasting System	297
9.1 Field Data Acquisition System	297
9.2 Crop Pest and Disease Remote Sensing Monitoring and Forecasting System	303
9.3 National Locust Remote Sensing Monitoring and Early Warning System	312
References	318
Summary	319
