Table of contents

List of tables	XI
List of figures	XIII
Preface	XV
Acknowledgments	XXI

CHAPTER 1

Presupposition and assertion: Theoretical overviews	1
1.1 Preamble	1
1.2 Presupposition and assertion	1
1.2.1 Theoretical perspectives on presupposition	1
1.2.2 Approaches to presupposition projection: Dynamic Semantics and Discourse Representation Theory	10
1.2.2.1 Dynamic Semantics	10
1.2.2.2 Discourse Representation Theory	12
1.2.3 A snapshot on categories: Presuppositions as <i>not</i> implicatures	13
1.3 Theoretical perspectives on assertion	20

CHAPTER 2

Topic, focus, given and new: Theoretical overviews	25
2.1 Preamble	25
2.2 Topic and focus: From the Prague linguistic circle onwards	26
2.3 Later approaches to information structure	30
2.4 Given and new	36
2.5 Levels of information structure: Long-term vs. short-term memory and the effects of information packaging	43
2.6 Summary and conclusion	48

CHAPTER 3

Sociobiological perspectives: For a unified account of evidentiality and information structure	51
3.1 Preamble	51
3.2 Evidence, territory of knowledge, epistemic statuses and epistemic stances	52

- 3.3 Evidentiality in the world's languages: Information source and speaker's attitude 56
 - 3.3.1 Information source evidentiality 56
 - 3.3.2 Speaker attitude evidentiality 60
- 3.4 Evidentiality and information structure 63
 - 3.4.1 Epistemic stances and the evidential values encoded by IS units 63
 - 3.4.1.1 Assertion, focus and personal experience evidentiality 64
 - 3.4.1.2 Presupposition, topic and factual evidentiality 73
- 3.5 Closure 79

CHAPTER 4

Experimental perspectives on information structure processing:

A literature review

81

- 4.1 Preamble 81
- 4.2 Psycholinguistic background on IS units 82
 - 4.2.1 Psycholinguistic perspectives on presupposition vs. assertion processing 82
 - 4.2.2 Psycholinguistic perspectives on the processing of topic, focus, given and new information 87
- 4.3 Neurological frontiers on language studies: Brain imaging techniques 92
 - 4.3.1 Language-related neurophysiological components: N400 and P600 95
 - 4.3.2 Brain oscillatory dynamics as revealed by frequency bands 98
 - 4.3.3 Towards context-dependent approaches to the study of sentence processing 100
 - 4.3.4 Neurolinguistic approaches to presupposition vs. assertion processing 104
 - 4.3.5 Topic-focus, given-new and event-related brain potentials 106

CHAPTER 5

Experimental perspectives on information structure processing:

Two electrophysiological studies

111

- 5.1 Study 1. Electrophysiological response to presupposition vs. assertion of new information: Evidence from event-related potentials 111
 - 5.1.1 Prelude 111
 - 5.1.2 Limits of previous experimental research on presupposition processing 111

5.1.3	Study rationale and experimental predictions	114
5.1.4	Materials and method	116
5.1.4.1	Participants	116
5.1.4.2	Experimental design	116
5.1.4.3	Stimuli	117
5.1.5	Measures on materials	118
5.1.5.1	Naturalness	119
5.1.5.2	Readability and length	119
5.1.6	Procedure and task	120
5.1.7	EEG recording and analysis	120
5.2	Results	122
5.2.1	Behavioral task	122
5.2.2	ERP results	122
5.2.3	N400 analysis	122
5.2.4	Latency analysis	124
5.3	Discussion	125
5.4	Study 2. Power spectrum analysis of different frequency bands during the online processing of aligned and misaligned Topic-Focus structures	130
5.4.1	Prelude	130
5.4.2	Method	131
5.4.3	Predictions	132
5.4.4	Data recording	132
5.4.5	Data pre-processing	133
5.4.6	Results	133
5.4.7	Discussion	135
5.4.8	Concluding remarks	136
5.5	Information structure processing between bottom-up and top-down modalities	137
5.6	Summary and conclusion: Chapter Four and Chapter Five	139

CHAPTER 6

A biolinguistic perspective on information structure		143
6.1	Preamble	143
6.2	Earlier accounts	144
6.3	When selectivity matters	148
6.3.1	Emerging selectivity: Ontogenetic evidence of information structure development	149
6.4	A closer look at evolution	156
6.4.1	Information structure as shaped by nature	157

6.4.1.1	Cognitive constraints on the emergence of IS units: The role of bottom-up (or data-driven) processing modalities	159
6.4.1.2	Cognitive constraints on the emergence of IS units: The role of top-down (or context-driven) processing modalities	163
6.5	Conclusion	169
