List of boxes

Box 1.1	Corpus of psychology handbooks for Section 1.1.2	27
Box 1.2	Cognitive science vs. cognitive sciences	36
Box 1.3	The concept of representation	39
Box 1.4	Excerpts from Australian standards for sensory analysis	44
Box 2.1	Experts and non-experts categories and principles of categorization	87
Box 3.1	Criteria for basic color term	104
Box 3.2	Hanunóo color categories: An example of relativistic research on color	107
Box 3.3	An alternative protocol: Color of objects within a global practice experience	117
Box 3.4	Experiencing car interiors: Survey methodology	124
Box 5.1	Multimodal illusions: The McGurk effect	173
Box 5.2	Timbre	175
Box 5.3	Phonemes of the world's languages	182
Box 6.1	Thoughts on the question of music transcription	220
Box 6.2	An example of ecological experimental setup	221
Box 6.3	Bring the room space back in the loop	224
Box 6.4	Professional and amateur musicians	229
Box 6.5	Is music only for the ears?	231
Box 6.6	Experimentally uncoupling sound and touch for the player	235
Box 6.7	Intra- and inter-individual consistency	235
Box 6.8	Freely playing the piano and the harpsichord	237
Box 6.9	Verbalizations from violin players	239
Box 7.1	Examples of basic odor words in Wanzi	272
Box 7.2	TELA story	279
Box 8.1	Nice's preface to Bourdieu's <i>Distinction</i>	301
Box 8.2	Evolution of sensory science	305
Box 8.3	Taste, tasting and the ritual of degustation	308
Box 8.4	Question 1: <i>Describe the taste you experience</i>	310
Box 8.5	Question 2: <i>Characterize the sample in detail in as many aspects as you can</i>	310

Box 8.6	Let's have some champagne	314
Box 8.7	Relations between visual, taste and olfactory attributes in champagne evaluation	319
Box 9.1	Umwelt and animals worlds	340
Box 9.2	"Seeing" and "seeing as", according to Hutchins (2008)	349
Box 9.3	Circulating reference and constructing scientific knowledge	350
Box 9.4	Recent work using less recent auditory display techniques to analyze earthquake signals	352
Box 9.5	The semiotic triad revisited: Conceptual changes	356
Box 10.1	Etic vs. emic perspectives	379
Box 10.2	Rephrasing road safety issue in terms of "readability of the road"	383
Box 10.3	Exploring the visual quality of car interiors	384
Box 10.4	Rephrasing the elicitation methods	385
Box 10.5	The concept of abduction	387
Box 10.6	Apple and pipe, after Magritte	392
Box 10.7	The concept of ecological validity, after Brunswik	397
Box 10.8	The semiotic triad, again revisited: Empirical changes	398
Box 11.1	Guidelines for non sexist language	406
Box 11.2	The way in which "they" are referred to (or not) in some psychoacoustic handbooks	412
Box 11.3	Who is questioned in color naming research?	415
Box 11.4	Varieties in listening expertises	419
Box 11.5	Sounding earthquakes: Who are the experts?	424
Box 11.6	Sound and noise in sonic environmental studies	426
Box 11.7	Shared knowledge in fieldwork – elicitations and beyond	429
Box 11.8	Describing together	431
Box 12.1	Definitions of "stimulus" in language dictionary and in the literature in psychology	440
Box 12.2	When the fiction of a photograph as an "exact" reproduction fails	446
Box 12.3	Virtual realities as designers' products	447
Box 12.4	Soundscape experience reproduction through image and sound	449
Box 12.5	Sniffing is part of the olfactory experience	453
Box 12.6	Engineers' analytical expert categories vs travelers' global situated categories	455
Box 12.7	Isolating odors from their context... but not too much!	461
Box 12.8	Analytic vs. holistic, expert vs. non-expert categorization	468
Box 13.1	Anecdotes on the social relation between researchers and participants	479

Box 13.2	Experiential knowledge: Naming or story telling?	484
Box 14.1	The tyranny of numbers: The example of semantic scales	511
Box 14.2	Enumerating in Ingarikó	512
Box 14.3	Selected lexical lists of words as forms and meaning, collective vs. individual results	516
Box 14.4	Expressing odors through morphological construction in Greek	519
Box 14.5	Comfort aboard trains	524
Box 14.6	The semantics of <i>clair</i>	526
Box 14.7	“Locutoire” and “délocutoire”	530
Box 14.8	Defining “projection” for violin players	530
Box 14.9	Evidentials and evidentiality	532
Box 15.1	The origins of psychophysics, according to J. J. Gibson	539
Box 15.2	Some historical landmarks on sorting tasks	541
Box 15.3	Some instructions for FST	549
Box 15.4	Tentative normalization of some words for FST analysis	551
Box 15.5	Hints about some other methods	553
Box 15.6	The Rand index, revisited	560
