## ACKNOWLEDGEMENTS

Parts of this work were presented at conferences, and other parts read by friends and colleagues. Particular analyses and formulations have profited from comments and suggestions by Henning Andersen, Elmer Antonsen, Alice Faber, Susan Guion, Jay Jasanoff, Katherine Leffel, Marie Nelson, Steve Podlecki, Tom Sawallis, Robert Scholes, Martin Schwartz, Nelleke Van Deusen-Scholl, and W. C. Watt. Thanks also to Susan Guion, Jean-Pierre Olivier, Robert Scholes, and Roger Woodard for making available to me prepublished copies of their work.

Special thanks go to Rex Wallace, John Stonham, and Elisa Maranzana for generous comments on the entire manuscript. Many useful discussions with Elisa helped clarify numerous points. Elmer Antonsen and Jay Jasanoff provided valuable assistance on the chapter on the runic alphabet. Jean-Pierre Olivier also provided generous assistance by sharing his own Linear B fonts and advising me on several characters.

My wife, Judith A. Miller, children's book writer and illustrator, aided the final preparation by meticulously drawing the graphic symbols in Appendix A. Several generations of students who suffered through preliminary versions of this work also deserve a "thank you".

Konrad Koerner deserves special mention for cheerfully fielding my E-mail pleas for help at all hours of the day or night, and for numerous valuable suggestions that enhanced the content of the manuscript as well as the style. Yola de Lusetet of Benjamins facilitated the technical issues of publication and advertising.
