## PREFATORY NOTE

The papers in this volume originated as presentations at the 18th annual meeting of the Atlantic Provinces Linguistic Association, held 28-29 October 1994 in Saint John, New Brunswick, Canada.

Selected papers on the conference theme of Microparametric Syntax and Dialect Variation were subsequently refereed and revised in light of reviewers' comments.

The editors gratefully acknowledge the generous support of the University of New Brunswick – Saint John and of the Social Sciences and Humanities Research Council of Canada for providing grants towards the costs of the conference and the publication of papers.

We also acknowledge with gratitude the help so freely and generously offered by linguists asked to comment on these papers: without their thorough and conscientious assistance, this enterprise would have been impossible. Special thanks as well to Janis Black for careful proofreading and many helpful suggestions.
