|                                                                |      |
|----------------------------------------------------------------|------|
| <b>Note on terminology</b>                                     | viii |
| <b>Aknowledgements</b>                                         | ix   |
| <b>Introduction</b>                                            | 1    |
| <b>1. The feature [coronal]</b>                                | 4    |
| 1.1 Introduction                                               | 4    |
| 1.2 The status of palatals                                     | 6    |
| 1.2.1 Historical background                                    | 6    |
| 1.2.2 Alleged evidence that palatals are [+coronal]            | 8    |
| 1.2.3 The phonetics of alveolopalatals and palatals            | 11   |
| 1.2.4 The phonology of alveolopalatals                         | 12   |
| 1.2.5 Palatal fricatives                                       | 15   |
| 1.2.6 Alveolopalatal and palatal glides                        | 21   |
| 1.2.7 Summary                                                  | 22   |
| 1.3 The status of [-coronal]                                   | 22   |
| 1.3.1 An argument against [-coronal]                           | 23   |
| 1.3.2 Evidence that labials and velars form a natural class    | 25   |
| 1.3.3 Attempts to eliminate [-coronal]                         | 26   |
| 1.3.4 A solution                                               | 30   |
| 1.3.5 Remarks on feature specifications and underspecification | 31   |
| <b>2. Feature specifications for coronals</b>                  | 33   |
| 2.1 Interdentals                                               | 33   |
| 2.1.1 Universal features for interdentals                      | 34   |
| 2.1.2 Are [anterior] and [strident] binary or privative?       | 35   |
| 2.1.3 [strident]                                               | 36   |
| 2.1.4 [anterior]                                               | 37   |
| 2.1.5 Interdentals are not specified for [distributed]         | 38   |
| 2.2 Dentals and alveolars                                      | 41   |

|                                                                   |            |
|-------------------------------------------------------------------|------------|
| 2.3 Retroflexes                                                   | 46         |
| 2.4 Alveolopalatals                                               | 50         |
| 2.4.1 Alveolopalatals and the palatalization feature              | 50         |
| 2.4.2 Alveolopalatals and the coronal features                    | 60         |
| 2.5 Palatoalveolars                                               | 62         |
| 2.5.1 Palatoalveolars and the coronal features                    | 62         |
| 2.5.2 Palatoalveolars and the palatalization feature              | 66         |
| 2.6 Palatals                                                      | 70         |
| 2.6.1 Feature specifications for palatals                         | 70         |
| 2.6.2 Palatalized palatals do not exist                           | 71         |
| 2.6.3 Palatal vs. palatalized velar contrasts                     | 74         |
| 2.7 Remarks on the representation of palatalization               | 76         |
| 2.7.1 The location of the palatalization feature                  | 77         |
| 2.7.2 What is [+P]?                                               | 82         |
| <b>3 Coronal consonant inventories</b>                            | <b>85</b>  |
| 3.1 Introduction                                                  | 85         |
| 3.2 Oppositions among coronal noncontinuant                       | 86         |
| 3.3 Coronal fricative systems                                     | 90         |
| 3.4 Inventory generalizations and the coronal features            | 97         |
| 3.5 The feature [lateral] and the status of “sonorant” fricatives | 99         |
| <b>4 Rhotics</b>                                                  | <b>104</b> |
| 4.1 Phonetics                                                     | 104        |
| 4.2 On the status of the feature [rhotic]                         | 107        |
| 4.3 Stricture features                                            | 112        |
| 4.4 Rhotics and the coronal features                              | 124        |
| 4.5 Concluding remarks                                            | 128        |
| <b>Conclusion</b>                                                 | <b>130</b> |
| <b>Appendix 1: IPA symbols</b>                                    | <b>133</b> |
| <b>Appendix 2: The features and their definitions</b>             | <b>134</b> |
| A.2.1 Major class features                                        | 134        |
| A.2.1.1 [consonantal]                                             | 135        |
| A.2.1.2 [sonorant]                                                | 135        |
| A.2.1.3 [approximant]                                             | 136        |
| A.2.2 Laryngeal features                                          | 136        |
| A.2.2.1 [voice]                                                   | 137        |

|                               |     |
|-------------------------------|-----|
| A.2.2.2 [spread glottis]      | 137 |
| A.2.2.3 [constricted glottis] | 137 |
| A.2.3 Manner features         | 138 |
| A.2.3.1 [nasal]               | 138 |
| A.2.3.2 [lateral]             | 138 |
| A.2.3.3 [continuant]          | 139 |
| A.2.4 Place features          | 140 |
| A.2.4.1 [labial]              | 140 |
| A.2.4.2 [round]               | 140 |
| A.2.4.3 [coronal]             | 141 |
| A.2.4.4 [strident]            | 141 |
| A.2.4.5 [distributed]         | 143 |
| A.2.4.6 [anterior]            | 144 |
| A.2.4.7 [dorsal]              | 146 |
| A.2.4.8 [high]                | 147 |
| A.2.4.9 [back]                | 148 |
