Acknowledgments

Every work that is as large as this requires the active participation of many people in addition to those whose names appear on the cover. We would like to acknowledge in particular the help of two people who contributed a great deal to this work. Earl Herrick drew the artwork for the figures. In addition, Nan Fries contributed greatly on many different tasks, including organizational and formatting issues. We must also credit Adam Makkai, author of Chapter 5, with originating the idea for this volume and conducting the preliminary correspondence leading to it. He had originally intended to be its editor-in-chief, but due to illness, other commitments, and a prolonged absence on overseas appointment in Hong Kong, he eventually turned the project over to the present editors.
