Acknowledgments

I would like to thank the Office of the Vice Provost for Research of the University of Virginia for a Sesquicentennial Associateship during Spring Semester 1997, during which time the core of this project was completed. I would also like to thank Professor E. F. Konrad Koerner, editor of this series, for his most professional handling of my manuscript. Finally, I would like to express my sincerest thanks to my colleagues, Javier Herrero, Donald Shaw, and the late Tibor Wlassics, as well as to my wife, Pam, and children, Chris and Marcus, all of whom gave me, throughout the entire period in which this book was produced, the kind of support and encouragement that cannot be described in words.
