ACKNOWLEDGEMENTS

Others have contributed so much to this volume that it is difficult to do them justice in a brief note. First mention goes to the team of students and scholars who compiled and published the original volume, *Principes de linguistique théorique* and to the Presses de l'Université Laval for permission to publish this translation. The long and difficult job of translating would have been much longer and more difficult without the expert help of Linda Mickelson-Cloutier. Both Professor Bob Jones at the University College of Wales in Aberystwyth and Professor Roch Valin, Head of the Fonds Gustave Guillaume in Quebec City have read the whole manuscript and made many pertinent suggestions concerning style and interpretation. Finally, it is only through the devoted and careful work of Line Simoneau, the secretary at the Fonds Gustave Guillaume, that we have been able to publish this translation at a fitting moment to mark the centenary of Guillaume's birth. To each of these persons goes our gratitude and a portion of any merit this volume may find in the eyes of the reader.
