*Current Issues in Linguistic Theory* (CILT) is a theory-oriented series which welcomes contributions from scholars who have significant proposals that advance our understanding of language, its structure, its function and especially its historical development. CILT offers an outlet for meaningful contributions to current linguistic debate.

A complete list of titles in this series can be found on <http://benjamins.com/catalog/cilt>

One task of comparative linguistics in the next century  
is to discuss the morphological similarities  
between the archaic Semito-  
hamitic languages  
and the development of the innovative Semito-  
hamitic languages  
in more detail and with more linguistic arguments.

Rainer M. Voigt (2002: 285–286)
