## ACKNOWLEDGEMENTS

This study is a strongly revised version of my thesis, Event Structure. I wish to thank The University of Ottawa and the Social Science and Humanities Research Council of Canada for their financial support without which the accomplishment of my thesis would have been impossible. I would like to thank also the members of my thesis committee who have supported and stimulated me throughout the period that I was working on it. They are: Keith Arnold, Paul Hirschbuhler, my thesis director, Shalom Lappin and Maria-Luisa Rivero. Furthermore, I thank Chris Adjemian, John Goldsmith and John Jensen, who were members of my defence committee, William O'Grady and two anonymous reviewers. Their comments were helpful in preparing the present study. I am grateful to Dana Mullen for having spent many hours with me working on the English data and Marie-Odile Junker for helping me with the French data. John Coghlan, I thank, for correcting my English and improving my style. Finally, I wish to express my gratitude to The Calgary Institute for the Humanities, which has made it possible for me to make the necessary changes to my thesis and prepare it for publication through a postdoctoral fellowship.
