Acknowledgments

The contributors to this volume have been so patient, during years of delay in the editing process, that I owe them an unusually emphatic expression of gratitude — not only for their lack of overt impatience, but for their amiable reaction to repeated editorial queries and requests for revision. The series editors, Pieter Muysken and John Singler, have provided valuable advice and helpful nudges throughout this period. My most enthusiastic thanks go to Anna Fenyvesi, whose extreme diligence and word-processing skill produced the final manuscript and whose moral support heartened me throughout the last stages of the process.
