## Manipulation and Ideologies in the Twentieth Century

## Discourse Approaches to Politics, Society and Culture

The series includes contributions that investigate political, social and cultural processes from a linguistic/discourse-analytic point of view. The aim is to publish monographs and edited volumes which combine language-based approaches with disciplines concerned essentially with human interaction — disciplines such as political science, international relations, social psychology, social anthropology, sociology, economics, and gender studies.

The book series complements the *Journal of Language and Politics*, edited by Ruth Wodak and Paul Chilton.
