Handbook of Terminology

ISSN 2352-1821

The *Handbook of Terminology (HOT)* aims at disseminating knowledge about terminology (management) and at providing easy access to a large range of topics, traditions, best practices, and methods to a broad audience: students, researchers, professionals and lecturers in Terminology, scholars and experts from other disciplines, such as linguistics, life sciences, metrology, chemistry, law studies, machine engineering, and any other expert domain. In addition, the *HOT* addresses experts in (multilingual) terminology, translation, interpreting, localization, editing, etc., such as communication specialists, translators, scientists, editors, public servants, brand managers, engineers, and (intercultural) organization specialists.

All chapters are written by specialists in the different subfields and are peer-reviewed.
