Handbook of Translation Studies

Handbook of Translation Studies

The *HTS* aims at disseminating knowledge about translation and interpreting to a relatively broad audience: not only students who often adamantly prefer user-friendliness, researchers and lecturers in Translation Studies, Translation & Interpreting professionals; but also scholars, experts and professionals from other disciplines (among which linguistics, sociology, history, psychology).

Moreover, the *HTS* is the first handbook with this scope in Translation Studies that has *both a print edition and an online version*. The *HTS* is variously searchable: by article, by author, by subject. Another benefit is the interconnection with the selection and organization principles of the online *Translation Studies Bibliography (TSB)*. Many items in the reference lists are hyperlinked to the *TSB*, where the user can find an abstract of a publication.

All articles are written by specialists in the different subfields and are peer-reviewed.
