Preface	XV
List of abbreviations	XVII

CHAPTER 1

Introduction	1
1. The phenomenon of ‘Left Edge Fronting’	1
1.1 The core data	1
1.1.1 Some first examples	1
1.1.2 The notion of ‘left periphery’	3
1.2 Earlier accounts of Latin LEF	3
1.2.1 Conjunctions as second position clitics	4
1.2.2 LEF as emphatic fronting	4
1.2.3 Evaluation	5
1.3 Two types of LEF	6
1.4 LEF in Latin adverbial clauses: A corpus survey	6
1.4.1 Step 1: Corpus research	7
1.4.1.1 General remarks	7
1.4.1.2 Description of the corpus	7
1.4.1.3 Periodization	8
1.4.1.4 Why adverbial clauses?	9
1.4.2 Step 2: Syntactic analysis	10
2. Word order in Latin	10
2.1 ‘Free but not arbitrary’: On the flexibility of Latin word order	10
2.2 Restrictions on word order permutations	12
2.2.1 The position of sentential negation	12
2.2.2 Conclusion	14
3. Linear order vs. hierarchical structure	14
3.1 A case study: Object positions in Latin	15
3.2 Linear order in syntax as a derived notion	16
3.3 Conclusion	18
4. Latin as a discourse-configurational language	18
4.1 Word order and information structure	19
4.1.1 Discourse neutral word order	19
4.1.2 The free word order phenomenon	20

4.1.2.1	Non-configurationality	20
4.1.2.2	Discourse configurationality	21
4.2	Latin as a discourse configurational language	22
4.2.1	Discourse neutral word order	22
4.2.2	Some 'marked' word order patterns	23
4.2.2.1	Left peripheral constituents	23
4.2.2.2	Scrambling	27
4.3	Round-up	28
5.	Addendum: Studying word order variation: A crash course in generative syntax	28
5.1	Some preliminaries	28
5.1.1	Phrase structure	29
5.1.2	Deriving linear order from hierarchical structure	30
5.1.2.1	C-command	30
5.1.2.2	The LCA and some of its consequences	31
5.1.3	The architecture of the grammar	32
5.2	Structure of the clause	33
5.2.1	The Universal Base and the cartographic project	33
5.2.2	Tripartition vs. bipartition	34
5.2.3	The Verb Phrase	35
5.2.4	The Tense Phrase	35
5.2.5	The Complementizer Phrase	36
5.2.6	Summary	37
5.2.7	A note on DPs	38
5.3	Movement	38
5.3.1	The nature of syntactic derivations	38
5.3.2	Types of movement	39
5.3.2.1	Head movement	39
5.3.2.2	A-movement	40
5.3.2.3	A'-movement	40
5.3.2.4	Scrambling	44
5.3.3	Relativized Minimality	45
5.3.3.1	The basic idea	45
5.3.3.2	Head movement, A-movement and A'-movement and RM	46
5.3.3.3	Splitting the A'-paradigm	47
5.3.3.4	Feature based RM	48
5.3.4	Syntactic islands	48
5.3.4.1	A small inventory of syntactic islands	48
5.3.4.2	Island effects as a diagnostic for movement	49
5.4	Conclusion	51

CHAPTER 2

The internal syntax of Adverbial Clauses (ACs)

53

1. Adverbial clauses: The landscape 53
 - 1.1 Clausal adjuncts 53
 - 1.2 External syntax of ACs 54
 - 1.2.1 Functional projections 54
 - 1.2.2 Clause-initial and clause-final position 55
 - 1.3 Latin ACs: Some key properties 56
 - 1.3.1 Latin ACs: Finite adverbials 56
 - 1.3.2 Monosemous vs. polysemous conjunctions 57
 - 1.3.3 Distinguishing different types of ACs introduced by *ut* 58
 - 1.3.4 More on verbal mood in embedded clauses 60
2. The operator derivation of ACs 64
 - 2.1 Temporal ACs as free relatives 64
 - 2.1.1 Adverbial subordinators with *wh*-morphology 64
 - 2.1.1.1 *when* as a *wh*-item 64
 - 2.1.1.2 *cum* as a *wh*-item 65
 - 2.1.2 Long distance readings 67
 - 2.1.2.1 English 67
 - 2.1.3 Analysis 68
 - 2.2 Conditionals 69
 - 2.3 Possible extensions 70
3. Main Clause Phenomena 73
 - 3.1 What are Main Clause Phenomena? 73
 - 3.2 Explaining the ban on embedded MCP 75
 - 3.2.1 The role of 'assertion' 75
 - 3.2.2 'Truncation' account (Haegeman 2003a,b; 2006) 76
 - 3.2.3 Intervention account (Haegeman 2009, 2010a,b) 77
4. Two types of ACs 79
 - 4.1 Central vs. peripheral ACs 79
 - 4.2 External syntax 80
 - 4.3 MCP in peripheral ACs 81
 - 4.4 Peripheral ACs in Latin 81
5. The distribution of the particle *quidem* in ACs 83
 - 5.1 Syntactic distribution of *quidem* 83
 - 5.1.1 ACs introduced by monosemous conjunctions 83
 - 5.1.2 ACs introduced by polysemous conjunctions 84
 - 5.2 On the interpretation of *quidem* 85
 - 5.3 *quidem* as a polarity marker 87
 - 5.3.1 'Stripping' or Bare Argument Ellipsis 88
 - 5.3.2 *quidem* in stripping contexts 88
 - 5.3.3 The syntax of polarity focus 90

- 5.3.4 Stripping as TP-ellipsis 90
- 5.3.5 Stripping in Latin 92
- 5.4 Accounting for the MCP-like distribution of *quidem* 92
- 6. Conclusion 93

CHAPTER 3

The left periphery of embedded clauses 95

- 1. The position of subordinating conjunctions with respect to topics and foci 95
 - 1.1 Subordinators in ForceP 95
 - 1.2 Subordinators lower than ForceP 97
 - 1.2.1 Introduction 97
 - 1.2.2 Modern Greek 99
 - 1.2.3 Some additional cross-linguistic data 102
 - 1.2.3.1 Bulgarian 102
 - 1.2.3.2 Russian 103
 - 1.2.3.3 English 103
 - 1.2.4 Intermediate conclusion 104
- 2. Clause typing and the role of ForceP 104
 - 2.1 On the position of subordinating conjunctions in the C-system 104
 - 2.1.1 Clause type and illocutionary force 104
 - 2.1.2 Disjoining subordinators from clause-typers 105
 - 2.2 The left periphery of Latin ACs 107
 - 2.3 LEF in Latin: A closer look at the data 108
- 3. Corpus study of LEF in Latin ACs 111
 - 3.1 Facts and figures 112
 - 3.1.1 The basic data set 112
 - 3.1.2 Position of the AC in the superordinate clause 114
 - 3.2 A first discussion of the figures 118
 - 3.2.1 A quantitative left-right asymmetry 118
 - 3.2.2 Diachrony 120
- 4. A preview of the upcoming analyses 122

CHAPTER 4

The syntax of island pied-piping: Evidence from Latin relative clauses 123

- 1. Introduction 123
 - 1.1 Presentation of the data 124
 - 1.1.1 *Relative Verschränkung* 124
 - 1.1.2 Clausal pied-piping 126
 - 1.1.3 Four important features of *relative Verschränkung* 127
 - 1.1.3.1 A left-right asymmetry 127
 - 1.1.3.2 Case morphology 127

1.1.3.3	No parasitic gaps	128
1.1.3.4	Linear position of the relative pronoun	128
1.1.4	Nature of the relative clause CP2	129
1.2	Cross-linguistic parallels	131
1.2.1	Ancient Greek	132
1.2.2	Early Modern English	132
1.2.3	Bavarian	133
1.2.4	Old Portuguese	135
1.3	Islands vs. non-islands	136
1.3.1	Complement clauses	136
1.3.1.1	Long extraction out of complement clauses	136
1.3.1.2	Pied-piped complement clauses	138
1.3.2	Strong islands in Latin, and some 'exotic' extractions	140
1.3.2.1	Adverbial clauses	140
1.3.2.2	Clausal subjects	142
1.3.3	Summary	142
2.	Clausal pied-piping	143
2.1	Introduction: On the phenomenon of pied-piping	143
2.1.1	Pied-piping of a DP	144
2.1.2	(Left Branch) Extraction	145
2.1.3	Frequency of pied-piping	146
2.2	Clausal/island pied-piping cross-linguistically	147
2.2.1	Imbabura Quechua	147
2.2.2	Basque	148
2.2.3	Malayalam	149
2.3	The syntax of clausal pied-piping	150
2.3.1	Step 1: Internal wh-movement	151
2.3.1.1	Tzotzil genitive possessors	151
2.3.1.2	Latin genitival wh-modifiers	152
2.3.1.3	German pied-piped infinitives	154
2.3.1.4	The 'Edge Generalization'	156
2.3.1.5	Partial movement	156
2.3.2	Step 2: Feature percolation	158
2.3.2.1	Feature movement via left branches	158
2.3.2.2	Eliminating feature percolation?	160
2.3.3	Step 3: Movement of the derived operator	161
2.4	Island pied-piping in a wh-in-situ language	162
2.5	Two alternative analyses and their problems	166
2.5.1	Alternative I: CP-scrambling followed by subextraction	166
2.5.2	Alternative II: CP3 base generated in a leftward position	167

2.6	Discussion: Internal wh-movement and successive cyclicity	168
2.6.1	Recursive internal wh-movement	168
2.6.1.1	Finnish	168
2.6.1.2	Latin	169
2.6.2	Concluding remarks	171
3.	A relative/interrogative asymmetry	172
3.1	The behaviour of Latin interrogative wh-	172
3.1.1	Recap: Pied-piping by relative wh-	172
3.1.2	Pied-piping by interrogative wh-	173
3.1.3	Summary	174
3.2	Asymmetries between relative and interrogative wh-	174
3.2.1	Extraction asymmetries	175
3.2.1.1	English	175
3.2.1.2	Bulgarian	175
3.2.1.3	German	176
3.2.2	Wh-in-situ	177
3.2.3	Crossover asymmetries	178
3.2.4	Conclusion	179
3.3	The feature make-up of wh-phrases	179
3.4	The derivation of Latin <i>relative Verschränkung</i>	180
3.5	Conclusion	181
4.	Extending the pied-piping analysis to cases with 2 CPs	181
4.1	More on the nature of the relative clause in LEF1	181
4.1.1	Introducing the <i>relatif de liaison</i>	181
4.1.2	<i>Relatif de liaison</i> and LEF	183
4.1.3	Bare vs. attributive wh-pronouns	184
4.2	Two types of non-restrictive relative clauses	185
4.2.1	Independent illocutionary force	186
4.2.2	Category of the antecedent	188
4.2.3	'Preposability': wh-words in parentheticals	188
4.2.4	Non-identity of external and internal head	189
4.2.5	Binding into relative clauses	191
4.2.6	Pied-piping	192
4.3	Two patterns in clausal pied-piping	194
4.3.1	Early Modern Dutch	194
4.3.2	Latin	195
4.3.3	Structure and derivation	197
4.4	On the pronoun introducing non-restrictive RCs	199
4.4.1	Referential dependency and E-type pronouns	200
4.4.2	Interpretive similarity with 'coordinating conjunction + pronoun'	204
5.	Summary	205

CHAPTER 5

Clausal pied-piping by topics

207

1. Non wh-words undergoing LEF: The data 207
 - 1.1 Type A: Single LEF 209
 - 1.1.1 Patterns attested 209
 - 1.1.2 Table and figures 210
 - 1.2 Type B: Multiple LEF 211
 - 1.2.1 Patterns attested 211
 - 1.2.2 Table and figures 212
 - 1.3 A note on ILLE 212
2. Excursus: Latin pronouns 214
 - 2.1 The system of Latin personal pronouns 214
 - 2.1.1 *pro* drop 214
 - 2.1.2 Overt pronouns: Paradigms 215
 - 2.1.3 Third person pronouns 215
 - 2.2 On the nature and usage of third person pronouns 217
 - 2.2.1 Demonstratives, or personal pronouns after all? 217
 - 2.2.1.1 Spatial deixis 218
 - 2.2.1.2 Principle B or principle C? 218
 - 2.2.1.3 Reference to non-humans 219
 - 2.2.2 Deixis vs. anaphora 220
 - 2.2.2.1 Deictic and other non-anaphoric uses 220
 - 2.2.2.2 Anaphoric use 221
 - 2.2.3 Pragmatic differences between third person pronouns 222
 - 2.3 ± Attributive 223
3. Type A: LEF1 with 1 pronoun 224
 - 3.1 Clause-internal occurrences of IS 224
 - 3.2 Fronted pronouns 228
 - 3.3 Topicalization asymmetries in modern languages 231
 - 3.3.1 Standard German 231
 - 3.3.2 Bavarian ‘Emphatic Topicalization’ 232
 - 3.3.2.1 The basic data 232
 - 3.3.2.2 Pragmatic value of ET 234
4. Accounting for the left-right asymmetry 234
 - 4.1 Clausal pied-piping by topics: Bayer 2001 235
 - 4.2 Latin pronominal LEF 238
 - 4.2.1 No topics inside (central) ACs 238
 - 4.2.2 AC-external Topic probe 240
5. Type B: Multiple LEF and what it can teach us 241
 - 5.1 Multiple LEF: The data 241
 - 5.1.1 Attested patterns 241

- 5.1.2 Unattested patterns 242
- 5.1.3 Question: Multiple fronting or two different phenomena? 243
- 5.2 Sources of multiple A'-movement 243
 - 5.2.1 Recursion: Multiple topics 243
 - 5.2.2 Multiple wh-movement and clustering 244
 - 5.2.2.1 The phenomenon 244
 - 5.2.2.2 Two types of multiple wh-languages 246
 - 5.2.2.3 Multiple wh- in Latin 249
 - 5.2.2.4 A note on phrasal clusters 250
- 5.3 Latin: Only one pied-piper 251
 - 5.3.1 No multiple topics 252
 - 5.3.2 Multiple A'-movement 252
 - 5.3.2.1 Superiority effects in multiple wh 252
 - 5.3.2.2 No superiority effects in multiple LEF 253
 - 5.3.3 Interim conclusion 254
- 5.4 Non-pronominal DP pied-pipers revisited 254
- 6. A possible alternative 255
 - 6.1 Romance (esp. Italian) Clitic Left Dislocation 255
 - 6.1.1 The left-right asymmetry 255
 - 6.1.2 Position of CLLD-constituents 256
 - 6.2 No pied-piping, *is* and *hic* in TopP 257
- 7. Conclusion 257

CHAPTER 6

LEF2: Presentational foci in CP

259

- 1. A third kind of fronting in embedded clauses 260
 - 1.1 Fronting in rightward clauses 260
 - 1.1.1 Some quantitative data 260
 - 1.1.2 LEF2 in initial clauses 262
 - 1.1.3 Multiple LEF2? 263
 - 1.2 Some interpretive characteristics of LEF2 265
 - 1.2.1 Discourse status of the fronted phrase 266
 - 1.2.2 Fronting of non-referential elements 267
 - 1.2.3 Fronting of non-specific elements: Indefinites and bare quantifiers 270
 - 1.3 What LEF2 is not, and why 272
 - 1.3.1 Against a scrambling analysis of LEF2 273
 - 1.3.2 Against a CLLD analysis 273
 - 1.4 A note on word order in poetry 275
- 2. Presentational foci in CP 275
 - 2.1 Different types of constituent focus: The classical picture 276
 - 2.1.1 Two types of constituent focus 276

2.1.1.1	Identificational foci	276
2.1.1.2	Presentational foci	277
2.1.2	Presentational foci in FocvP	278
2.1.3	The locus of focus: Focus projections in the clausal spine	280
2.2	Some refinements	280
2.2.1	Modern Greek	281
2.2.2	Sicilian	282
2.2.3	'Subpart of Focus Fronting'	283
2.3	Characterization of Latin LEF2	284
3.	Summary	286
4.	Interlude: The special behaviour of LEF under coordination	287
4.1	The data that initially made me think that LEF is postsyntactic PF-movement...	287
4.2	... and the ones that subsequently made me abandon this idea	289
CHAPTER 7		
The syntax of LEF2: A synchronic and diachronic perspective		291
1.	Diachronic evolution: Decline of LEF2	291
1.1	Results of the corpus study	292
1.1.1	The figures	292
1.1.2	Statistics	294
1.2	Two hypotheses	296
1.2.1	How LEF2-constituents end up in CP	296
1.2.2	Syntactic change in Latin: The loss of LEF2 and the shift from OV to VO	297
2.	The derivation of Latin SOV	300
2.1	Theoretical premises	300
2.1.1	Universal base and language specific neutral word orders	300
2.1.2	'Mixed' word order languages	301
2.1.3	Verbal inflection and head movement	301
2.1.4	The EPP-requirement	302
2.2	Deriving the order 'verb-inflection' through vP movement: Some case studies	304
2.2.1	West Flemish	305
2.2.2	Finnish	307
2.2.3	Hindi	309
2.3	vP movement in Latin	310
2.3.1	OV word order in Latin: The basic idea	311
2.3.1.1	Synthetic vs. analytic verbs	311
2.3.1.2	Deriving the order OV: Short object movement	312
2.3.1.3	Deriving the order V-INFL: (remnant) vP movement	312

2.3.2	Two illustrations	314
2.3.2.1	'Analytic' transitive verbs	314
2.3.2.2	Auxiliaries and transitive infinitives	317
2.3.3	Round-up	319
3.	A 'smuggling' derivation	319
3.1	Smuggling and locality	319
3.1.1	English passives	320
3.1.2	Italian VOS	321
3.1.3	Clause-final functional adverbs	321
3.2	Details of the Latin derivation	323
3.2.1	Some notes on locality	323
3.2.2	An example: LEF2 of a direct object	323
4.	Decline and loss of LEF2	324
4.1	Not so strictly INFL-final: V-XP order in Latin	325
4.1.1	Previous accounts	325
4.1.2	VO-syntax: Not a unitary phenomenon	327
4.1.2.1	Postverbal I: Destressed 'tails'	328
4.1.2.2	Postverbal II: Presentational foci	330
4.2	Loss of <i>vP</i> movement and its consequences	333
5.	Conclusion	335
