Preface

The contributions in this volume are a selection of papers that were originally presented at the workshop *Diachronic Clues to Synchronic Syntax* held in November 2002 in Stuttgart, which focused on the idea that sometimes synchronic phenomena can only be fully understood by looking at their diachrony. Of the six papers, the contributions by Zoe Wu and Eric Fuß were not presented at the workshop. The papers presented by Anthony Kroch and Barbara Vance could unfortunately not be included in the volume. We would like to take this opportunity here to thank the participants of the workshop for taking part in it and also for helping us to create this volume.
