List of tables

1 able 2-1.	Materials types in Gilboy, Sopena, Clifton & Frazier (1995).	. 22	
Table 3-1.	Language-dependent and language-independent patterns o	f	
	strategy use in bilinguals.	79	
Table 4-1.	Mean rated plausibility of N1 and N2 hosts as a function of	•	
	language and complex NP number for short-RC and long-		
	RC experimental items.	109	
Table 4-2.	Mean rated plausibility of implausible and plausible hosts		
	as a function of language for borrowed materials with one		
	implausible host.	110	
Table 4-3.	Mean rated grammaticality of bare matrix and relative acce	pt-	
	ability of Norman versus Saxon construction as a function of		
	language and complex NP number.	114	
Table 4-4.	Mean relative naturalness of short and long versions of expe	eri-	
	mental items as a function of complex NP number.	116	
Table 4-5.	Length of the target materials in English and Spanish mater	ials	
	by region, measured in prosodic words, syllables and characteristics.	cters.	
		118	
Table 5-1.	General demographics, language history and encoding prefe	er-	
	ences for USENG and CSPA monolinguals.	127	
Table 5-2.	Monolingual subjects' L2s.	128	
Table 5-3.	Monolingual subjects' fluency in L2s.	129	
Table 5-4.	Distribution of N2 attachment rates and difference between	ı	
	short-RC and long-RC rates as a function of subjects'		
	responses to "Inner Voice (Letters)" for USENG and CSPA		
	monolinguals.	140	
Table 5-5.	Distribution of altered responses in the off-line monolingua	al	
	data.	141	
Table 5-6.	Difference between RTs and % errors in items containing		
	plural versus singular N2s, as a function of language group		
	for frames 1, 2 and 3.	154	
Table 6-1.	Mean self-reported proficiencies for EDOM and SDOM bili	n-	
	guals (primary language dominance criteria).	164	

Table 6-2.	Preferred language for special circumstances for EDOM and SDOM bilinguals (secondary language dominance criteria).		
Table 6-3.	Preferred language for "neurosurgery" question for EDOM		
	and SDOM bilinguals (ternary language dominance criterio	11). 166	
Table 6-4.	Bilinguals' general demographics.	168	
Table 6-5.	Language history of the EDOM bilinguals.	169	
Table 6-6.	Language history of the SDOM bilinguals.	170	
Table 6-7.	Mean rated frequency of language use for EDOM and SDOM		
	bilinguals, in different time periods and contexts.	171	
Table 6-8.	Mean rated frequency of language use with immediate famil	-	
	during childhood and adolescence, for EDOM and SDOM	,	
	bilinguals.	172	
Table 6-9.	EDOM and SDOM bilinguals in three acquisition history		
	categories.	173	
Table 6-10.	Encoding preferences for EDOM and SDOM bilinguals.	175	
Table 6-11.	Percent error rates for filler questions in questionnaire and		
	self-paced reading tasks, for EDOM and SDOM bilinguals,		
	and USENG and CSPA monolinguals.	178	
Table 6-12.	Distribution of altered responses in the off-line bilingual date	ta.	
		192	
Table E-1.	Mean self-reported proficiencies for EDOM and SDOM bilin	n-	
	guals, questionnaire (Quest) and self-paced reading (SPR)		
	participants.	261	
Table E-2.	Preferred language for special circumstances for EDOM and		
	SDOM bilinguals, questionnaire participants.	261	
Table E-3.	Preferred language for special circumstances for EDOM and		
m 11 m .	SDOM bilinguals, self-paced reading participants.	262	
Table E-4.	Preferred language for "neurosurgery" question, for EDOM		
m 11 n e	and SDOM bilinguals, questionnaire subjects.	262	
Table E-5.	Preferred language for "neurosurgery" question, for EDOM		
T.1.1. P. 6	and SDOM bilinguals, self-paced reading task.	263	
Table E-6.	Bilinguals' general demographics, questionnaire and	- (-	
Table E-7.	self-paced reading rarticipants.	263	
Table E-/.	Language history of the EDOM bilinguals, questionnaire an self-paced reading participants.		
Table E-8.	Language history of SDOM bilinguals, questionnaire and se	264 lf_	
Table E-0.	paced reading participants.	11- 264	
	paccu reading participants.	204	

Table E-9.	Mean rated frequency of language use for EDOM and SDOM		
	bilinguals, in different time periods and contexts,		
	questionnaire and self-paced reading participants.	265	
Table E-10.	Mean rated frequency of language use with immediate family	y	
	during childhood and adolescence, for EDOM and SDOM		
	bilinguals, questionnaire and self-paced reading participants.	,	
		265	
Table E-11.	EDOM and SDOM bilinguals in three acquisition history		
	categories, questionnaire and self-paced reading participants		
		266	
Table E-12.	Encoding preferences for EDOM and SEDOM bilinguals,		
	questionnaire and self-paced reading participants.	266	
Table F-1.	General demographics, language history and encoding prefer	: -	
	ences for PRSPA monolinguals	268
