It was a pleasure to write this book and thus have the opportunity to collect the available rich production of theoretically oriented studies on the acquisition of Italian. This type of enterprise inevitably owes a lot to many people. We cannot even attempt to explicitly try to mention them all. We will only mention here a few of them most directly involved in joint work with us; many, however, will recognize their presence throughout the following pages.

First of all, we want to express our deepest gratitude to all our students and young collaborators for their precious role in constantly stimulating new research questions, the careful analysis of available results and, in many cases, the conception of new designs; most of all we thank them for their enthusiasm which is for us the best and constant source of inspiration.

We thank our closest collaborators and colleagues for their comments and remarks during many years of joint work and collaboration, and for their often crucial role in running some of the experiments discussed in this book: Flavia Adani, Fabrizio Arosio, Elisa Bennati, Carlo Cecchetto, Cristiano Chesi, Chiara Cantiani, Stephen Crain, Carla Contemori, Francesca Foppolo, Naama Friedmann, Cornelia Hamann, Hu Shenai, Chiara Leonini, Claudia Manetti, Elena Pagliarini, Luigi Rizzi, Antonella Sorace, Mirta Vernice. Special thanks go to Nina Hyams for her careful and illuminating comments on an earlier draft of this book, which allowed for significant improvements in the final version presented here. Our gratitude also goes to the editors of the series Roumyana Slabakova and Lydia White for their constant support and to Kees Vaes for his discrete and professional role during the overall, long, period of production of the final manuscript. Thanks to Dara Jokilehto for checking our English. Finally, we thank each other for a most fruitful and productive collaboration in the conception and writing of this book.

Most of the work for this book was undertaken within the frame of our joint Firb-project RBNE074TLX – “The fundamental research on language at the service of the Italian language”, funded by the Italian Ministry of research/Miur. Adriana Belletti’s research was funded in part by the European Research Council/ERC Advanced Grant 340297 SynCart – “Syntactic cartography and locality in adult grammars and language acquisition”. Maria Teresa Guasti wishes to acknowledge the ARC Centre of Excellence in Cognition and its disorders (CCD), Macquarie Sydney and the Department of Theoretical and Applied Linguistics, Cambridge, UK where parts of this book have been written during her sabbatical and other scientific visits.
