Peripheries in Kashmiri and Hindi-Urdu

Language Faculty and Beyond

Internal and External Variation in Linguistics

Language Faculty and Beyond (LFAB) focuses on research that contributes to a deeper understanding of the properties of languages as a result of the Language Faculty and its interface with other domains of the mind/brain. While the series will pay particular attention to the traditional tension between descriptive and explanatory adequacy, the series will also address issues such as the level of linguistic design, through new lines of inquiry often referred to as ‘physiological linguistics’ or ‘biolinguistics.’ *LFAB* aims to publish studies from the point of view of internal and external factors which bear on the nature of micro- and macro-variation as, for example, understood in the minimalist approach to language.
