# How to Use Corpora in Language Teaching

# Studies in Corpus Linguistics

*Studies in Corpus Linguistics* aims to provide insights into the way a corpus can be used, the type of findings that can be obtained, the possible applications of these findings as well as the theoretical changes that corpus work can bring into linguistics and language engineering. The main concern of SCL is to present findings based on, or related to, the cumulative effect of naturally occurring language and on the interpretation of frequency and distributional data.
