Columbia School Linguistics in the 21st Century

Studies in Functional and Structural Linguistics (SFSL)

ISSN 1385-7916

Taking the broadest and most general definitions of the terms functional and structural, this series aims to present linguistic and interdisciplinary research that relates language structure – at any level of analysis from phonology to discourse – to broader functional considerations, whether cognitive, communicative, pragmatic or sociocultural. Preference will be given to studies that focus on data from actual discourse, whether speech, writing or other nonvocal medium.

The series was formerly known as *Linguistic & Literary Studies in Eastern Europe (LLSEE)*.
