List of abbreviations xi

CHAPTER 1

Introduction 1

1.1 Characteristics of spontaneous speech 1

1.2 Types of fragments and ellipses 3

1.2.1 Structural ellipses 4

1.2.2 Performance governed apocopes in spoken language 6

1.2.3 Freestanding constituents 8

1.2.4 Discourse ellipses 10

1.2.5 Elliptical data from written registers 11

1.3 A distinct grammar for spontaneous speech? 14

1.3.1 Same grammar or different grammars? 15

1.3.2 Dialogism versus monologism 16

1.4 Well-formedness in discourse ellipses 18

1.5 Collection of data 22

1.6 Overview of the book 25

CHAPTER 2

Null arguments in generative theory 27

2.1 *Pro* drop and zero topic 29

2.2 German subject/object asymmetries 31

2.3 The null constant 33

2.4 Null subjects in abbreviated registers – structural truncation? 35

2.5 Fundament ellipsis in Swedish 37

2.6 Towards a uniform approach to null arguments 41

2.7 The need for an empirical and theoretical broadening 44

CHAPTER 3

Foundations of a grammar model 51

3.1 A selective approach to meaning: Grammar semantics 51

3.2 A weak interpretation of the principle of full identification 54

3.3 Endoskeletal versus exoskeletal theories **59**
3.3.1 Lexically driven grammars **59**
3.3.2 The exoskeletal alternative **63**
3.3.3 Five syntactic frames in Norwegian **66**

CHAPTER 4
A G-SEMANTIC syntax with insertion slots **75**
4.1 Syntactic terminals – the building blocks **75**
4.2 Empty slots for insertion **78**
4.3 Separationism in the functional domain **82**
4.4 Clausal architecture **84**
4.4.1 CP – Illocutionary force and speech acts **85**
4.4.2 TP – a tense operator **90**
4.4.3 A predication operator in PrP **92**
4.4.4 An exoskeletal approach to VP **97**
4.4.5 The ontology of lexical semantics **103**
4.5 Conclusion **104**

CHAPTER 5
Silent structure and feature construal **107**
5.1 The structure question **107**
5.2 Agreement and valuation of phi-features **113**
5.2.1 Active agreement features in the ellipsis site **113**
5.2.2 Checking by valuation **116**
5.2.3 Semantic agreement **119**
5.2.4 An alternative analysis: Feature construal **122**
5.2.5 Feature construal in discourse ellipses **132**

CHAPTER 6
Semantic licensing restrictions **137**
6.1 Phonological deletion **138**
6.2 Deletion through movement **140**
6.3 Semantic identity and structural licensing restrictions **143**
6.4 Recoverability of deletion **145**
6.4.1 The original principle **146**
6.4.2 Expanded use of the principle – recoverability in context **148**
6.4.3 Strategies for identification **150**
6.5 Shortcomings of the recoverability condition **154**
6.5.1 Expletive subjects and copula verbs **154**
6.5.2 Structural licensing **160**
6.6 Processing discourse ellipses **163**

CHAPTER 7
Structural licensing conditions **165**
7.1 The vulnerability of the C-domain **165**
7.1.1 The C-domain as an interface to discourse **165**
7.1.2 Preposed elements in [SPEC,CP]: topic and focus **168**
7.1.3 Non-sentence initial discourse ellipses **175**
7.1.4 Person restrictions on topic drop **177**
7.1.5 Interacting syntactic and semantic restrictions **180**
7.2 The CP–TP connection – silence under agree **181**
7.2.1 Empirical patterns **181**
7.2.2 No CP in subject-initial clauses? **183**
7.2.3 Feature inheritance from C to T – a phase-based analysis **187**
7.2.4 Silence under agree **188**
7.3 Agreement and silence in the C – T complex **191**
7.3.1 Omitted topicalized subject **191**
7.3.2 Omitted topicalized object **191**
7.3.3 Omitted topicalized subject and auxiliary **194**
7.3.4 Omission of topicalized object and auxiliary is impossible **196**
7.3.5 Ellipsis in yes/no questions **200**
7.3.6 Lexical verbs versus modal and perfective auxiliaries **203**
7.4 Why is there a subject/object asymmetry in the C-domain? **205**

CHAPTER 8
Concluding remarks **209**
8.1 Empirical and theoretical contributions **209**
8.2 Prospects **211**
