Christopher Code (Leicester Polytechnic, UK)
Alvirda Farmer (San Jose State University, USA)
John H.V. Gilbert (University of British Columbia, Can.)
Yvan Lebrun (Vrije Universiteit, Belgium)
Lise Menn (University of Colorado at Boulder, USA)

AIMS AND SCOPE

The establishment of this series reflects the growth of both interest and research into disorders of speech and language. It is intended that the series will provide a platform for the development of academic debate and enquiry into the related fields of speech pathology and clinical linguistics.

To this end, the series will publish book length studies or collections of papers on aspects of disordered communication, and the relation between language theory and language pathology.

Volume 1

Raymond D. Kent (ed.)

*Intelligibility in Speech Disorders
Theory, measurement and management*
