The volumes to be included in the series will fall into three main groups:

- a) studies which contribute to the understanding of the problems of literary theory, past and present;
- b) works which can be said to fill existing lacunae in the fields of general and comparative literature, including text editions;
- c) works which reflect the research interests of the department itself. This includes comparative literature from the Middle Ages to the present, as well as particular aspects of and approaches to the theory of literature.
