International Society of Phonetic Sciences

Lund and Bonn, January 1964

Dear Colleague,

the International Society of Phonetic Sciences has, from January 1st, moved its Secretariat to Koblenzer Strasse 98a, Bonn, Germany.

A complete list of the members of the Society is planned. To this end the Secretariat invites any person who wishes to join the Society, to hand in name and address so that he can be put on our file. So far there are no registration or membership fees.

One of the most important reasons for listing the Phoneticians from every part of the world is to facilitate intercommunication. We plan to issue, in a printed or mimeographed form, our complete file.

The Secretary also invites suggestions regarding Service Plans for the International Society. Any idea to stimulate collaboration and exchange of views and research achievements is highly welcome. The Executive Committee is looking forward to issuing six-monthly reports about our Organization.

The Board has been informed that further symposiums are planned. This is taken as a very promising omen for the activity.

Yours sincerely,

Bertil Malmberg

Martin Kloster Jensen
