

## Publications Received for Review

---

Each fascicle of *Phonetica* provides a list of the publications that have been received for review. Readers who would like to write critical commentaries on any of these books for *Phonetica* are requested to contact the editor, Prof. K. J. Kohler, Institut für Phonetik, Universität Kiel, Olshausenstr. 40, D-2300 Kiel, FRG, who will arrange for the copies to be sent to them. At the same time, he will inform them about the expected length of the review as well as other technical details, and suggest a date for submitting the manuscripts. The time allotted for preparing reviews will on principle be kept as short as possible in order to enable *Phonetica* to fulfill its obligation of keeping its readers up to date with publications in the field of speech science. Readers are also welcome to suggest any other book in our field for review in *Phonetica*, over and above the ones named in the list of received publications. The editor will then take the necessary steps to obtain copies from the publishing firms.

*Almeida, Antonio, Braun, Angelika, Hrsg.: Probleme der phonetischen Transkription.* (ZDL, Beiheft 54). Franz Steiner Verlag Wiesbaden GmbH, Stuttgart 1987. 164 p., DM 48,-, kart. ISBN 3-515-05048-5.
