Preface	vii
1. Introduction	3
1.1. The Problem	3
1.2. Our Approach	7
1.3. Case Histories	8
1.4. Organization	9
2. Procedures	11
2.1. Archbold Biological Station	11
2.2. Open Habitat	12
2.3. Tame Jays	13
2.4. Field Procedures	15
2.5. Tabular Data	22
3. The Scrub Jay in Florida	24
Synopsis	24
3.1. Geographic History	24
3.2. The Scrub Habitat	27
3.3. Florida Scrub Jay Habitat Use	36
3.4. Food	41
3.5. Population Density	45
3.6. Western Scrub Jays	49
3.7. Conclusions	51
4. The Pair Bond	54
Synopsis	54
4.1. Evidence for Monogamy	55
4.2. Duration of Pair Bonds	58
4.3. Bigamy	61
4.4. Age at First Breeding	62

CONTENTS

4.5.	Fates of Widowed Jays	67
4.6.	Close Inbreeding	68
4.7.	Adopted Helpers	70
4.8.	Advantages of Mate Fidelity	73
4.9.	Conclusions	76
5.	Helpers	80
	Synopsis	80
5.1.	Number of Helpers	81
5.2.	Activities of Helpers	83
5.3.	Sex and Age of Helpers	84
5.4.	Whom Helpers Help	86
5.5.	Intrafamilial Dominance	90
5.6.	Conclusions	93
6.	Territory	101
	Synopsis	101
6.1.	Boundary Stability and Permanence of Ownership	104
6.2.	The Average Territory	105
6.3.	Territory Size and Family Size	108
6.4.	Sex of Helpers and Territorial Growth	119
6.5.	Variation in Territory Quality	121
6.6.	Disappearance of Territories	123
6.7.	Advantages of Large Territories	126
6.8.	Conclusions	132
7.	Dispersal	137
	Synopsis	137
7.1.	Obtaining Breeding Space	138
7.2.	Departures of Groups	142
7.3.	Dispersal Distances	145
7.4.	Seasonality of Dispersal	149
7.5.	Dispersal Forays	151
7.6.	Fledgling Wandering	153

CONTENTS

7.7.	Territorial Budding	155
7.8.	Multipair Territories	161
7.9.	Dispersal and Budding in Relation to Family and Territory Size	166
7.10.	Effective Population Size and Inbreeding	171
7.11.	Conclusions	175
8.	Reproduction	180
	Synopsis	180
8.1.	The Breeding Cycle	182
8.2.	Annual Fledgling Production	185
8.3.	Do Helpers Help?	186
8.4.	Causes of Nesting Failure	207
8.5.	Is There an Optimal Clutch Size?	214
8.6.	Annual Variation in Reproductive Success	219
8.7.	Fecundity and Age of Breeder	228
8.8.	Hypotheses for Helpers Benefiting from Helping	231
8.9.	Per Capita Reproductive Success	237
8.10.	Conclusions	243
9.	Survivorship and the Life Table	251
	Synopsis	251
9.1.	First-Year Survival	253
9.2.	Survival of Breeders	263
9.3.	Survival of Older Helpers	273
9.4.	Life Table and Age Structure	280
9.5.	l_xm_x and Intrinsic Rate of Increase	291
9.6.	Conclusions	299
10.	Evolution of Florida Scrub Jay Sociality	305
	Synopsis	305
10.1.	Estimating Fitness	307

CONTENTS

10.2.	Alternative Strategies for Nonbreeders	317
10.3.	Breeding-Space Competition and Evolution of Cooperative Breeding	328
10.4.	The Evolution of Cooperative Breeding in <i>Aphelocoma</i>	340
10.5.	Recent and Future Directions	347
	Epilogue	351
	Appendixes	357
	References	379
	Author Index	397
	Subject Index	400

The Florida Scrub Jay
