Scott T. Smith (Penn State University)

Books in the Graphic Medicine series are inspired by a growing awareness of the value of comics as an important resource for communicating about a range of issues broadly termed "medical." For medical practitioners, patients, families, and caregivers dealing with illness and disability, graphic narrative enlightens complicated or difficult experience. For scholars in literary, cultural, and comics studies, the genre articulates a complex and powerful analysis of illness, medicine, and disability and a rethinking of the boundaries of "health." The series includes original comics from artists and non-artists alike, such as self-reflective "graphic pathographies" or comics used in medical training and education, as well as monographic studies and edited collections from scholars, practitioners, and medical educators.

Other titles in the series:

MK Czerwiec, Ian Williams, Susan Merrill Squier, Michael J. Green, Kimberly R. Myers, and Scott T. Smith, *Graphic Medicine Manifesto*

Ian Williams, The Bad Doctor: The Troubled Life and Times of Dr. Iwan James

Peter Dunlap-Shohl, My Degeneration: A Journey Through Parkinson's

Aneurin Wright, Things to Do in a Retirement Home Trailer Park \dots When You're 29 and Unemployed
