British Library Cataloging-in-Publication Data is available

This Handbook is the result of work funded under the Economic Development and Institutions research programme. Oxford Policy Management (OPM) was appointed by the UK Department for International Development to deliver this programme, which aims to “produce a body of evidence and insights into what practicable actions produce institutional changes that improve economic outcomes and increase growth.” The consortium is led by OPM and includes the Paris School of Economics, University of Namur, and Aide à la Décision Économique.

This project was funded with UK aid from the UK government.
