
List of Tables

1	The motion types	xix
2	Configurations	xx
3	Unmeasured and unknown effects	xxi
2.1	Physical parameters of the mining cable elevator	27
3.1	Physical parameters of the dual-cable mining elevator	50
4.1	Physical parameters of the mining elevator	65
4.2	Simulation parameters of the mining elevator	80
5.1	Physical parameters of the mining cable elevator	117
6.1	Physical parameters of the DCV	132
6.2	Comparison of previous results on the boundary vibration control of cables	168
7.1	Physical parameters of the DCV	171
8.1	Physical parameters of the oil-drilling system	223
10.1	Physical parameters of the DCV	300
11.1	Physical parameters of the mining cable elevator	334
12.1	Comparison of results on the boundary control of sandwich systems	372
13.1	Physical parameters of the descending mining cable elevator	394
13.2	Parameters of the proposed adaptive event-based control system	396
15.1	Physical parameters of the mining cable elevator	460
15.2	Recent results of triggered-type adaptive boundary control of PDEs	470
