

Contents

Introduction to the Public Writings	xi
1 On the Principle of Relativity (1914)	1
2 Inaugural Lecture at the Prussian Academy of Sciences (1914)	4
3 Manifesto to the Europeans (1914) with G. F. Nicolai and F. W. Förster	7
4 Ernst Mach (1916)	10
5 My Opinion on the War (1916)	17
6 The Nightmare (1917)	20
7 Motives for Research (1918)	21
8 Dialogue about Objections to the Theory of Relativity (1921)	24
9 Time, Space, and Gravitation (1919)	34
10 Induction and Deduction in Physics (1919)	39
11 Immigration from the East (1919)	41
12 Uproar in the Lecture Hall/An Explanation (1920)	43
13 A Confession (1920)	44
14 Ether and the Theory of Relativity (1920)	46
15 To the General Association for Popular Technical Education (1920)	57
16 On New Sources of Energy (1920)	58
17 My Response: On the Anti-Relativity Company (1920)	60

18	On the Contribution of Intellectuals to International Reconciliation (1920)	63
19	The Common Element in Artistic and Scientific Experience (1921)	65
20	Geometry and Experience (1921)	65
21	How I Became a Zionist (1921)	78
22	The Development and Present Position of the Theory of Relativity (1921)	83
23	On a Jewish Palestine (1921)	86
24	The Impact of Science on the Development of Pacifism (1921)	89
25	The Plight of German Science: A Danger for the Nation (1921)	90
26	Preface to Bertrand Russell's <i>Political Ideals</i> (1922)	92
27	Review of Wolfgang Pauli, <i>The Theory of Relativity</i> (1922)	93
28	In Memoriam Walther Rathenau (1922)	94
29	On the Present Crisis of Theoretical Physics (1922)	96
30	Musings on My Impressions in Japan (1923)	102
31	My Impressions of Palestine (1923)	107
32	Antisemitism and Academic Youth (1923)	110
33	Review of Josef Winternitz's <i>Relativity Theory and Epistemology</i> (1923)	112
34	Sound Recording for the Prussian State Library (1924)	115
35	The Compton Experiment: Does Science Exist for Its Own Sake? (1924)	116
36	On the League of Nations (1924)	121

37	Review of Alfred C. Elsbach's <i>Kant and Einstein</i> (1924)	123
38	Non-Euclidean Geometry and Physics (1925)	130
39	Introductory Letter to <i>Letters from Russian Prisons</i> (1925)	135
40	Why Zionism/A Message (1925)	136
41	Pan-Europe (1925)	138
42	The Mission of the Hebrew University/ A Word for the Journey (1925)	141
43	On Ideals (1925)	143
44	Space-Time, <i>Encyclopædia Britannica</i> (1926)	146
45	New Experiments on the Effect of the Earth's Motion on Light Velocity with Respect to the Earth (1927)	157
46	Speech at Rally for the Keren Ha-Yesod in Berlin (1926)	160
47	Newton's Mechanics and Its Influence on the Formation of Theoretical Physics (1927)	161
48	Review of Émile Meyerson's <i>La Déduction Relativiste</i> (1928)	169
49	The New Field Theory (1929)	174
50	Einstein Believes in Spinoza's God (1929)	183
51	The Palestine Troubles (1929)	185
52	To a Young Scholar (1929)	192
53	What I Believe: Living Philosophies XIII (1930)	193
54	Religion and Science (1930)	197
55	Militant Pacifism/The Two Percent Speech (1930)	201
56	Some Remarks Concerning My American Impressions (1931)	203

57	The 1932 Disarmament Conference (1931)	206
58	To American Negroes (1932)	208
59	Why War? (1932)	210
60	Is There a Jewish Philosophy? (1932)	213
61	Statement on Hitler upon Leaving Pasadena (1933)	215
62	Letter of Resignation from Prussian Academy of Sciences (1933)	216
63	Militant Pacifism No More (1933)	217
64	On the Method of Theoretical Physics/The Herbert Spencer Lecture (1933)	218
65	Science and Civilization/The Albert Hall Speech (1933)	225
66	Foreword to “The Contribution of the Jews of Germany to German Civilization” (1933)	228
67	On Germany and Hitler (1935)	230
68	Some Thoughts Concerning Education (1936)	231
69	The Calling of the Jews (1936)	236
70	Why Do They Hate the Jews? (1938)	238
71	Our Debt to Zionism (1938)	245
72	Ten Fateful Years: Living Philosophies, Revised (1938)	247
73	Letter to Franklin D. Roosevelt (1939)	250
74	Freedom and Science (1940)	252
75	The Common Language of Science (1942)	255
76	Newton’s 300th Birthday (1942)	258
77	Remarks on Bertrand Russell’s Theory of Knowledge (1944)	262

78	To the Heroes of the Battle of the Warsaw Ghetto (1944)	268
79	On the Atomic Bomb (1945)	269
80	On the American Council for Judaism (1945)	274
81	Commemorative Words for Franklin D. Roosevelt (1945)	275
82	The Way Out (1946)	277
83	Foreword to <i>Spinoza: Portrait of a Spiritual Hero</i> (1946)	281
84	A Message to My Adopted Country (1946)	283
85	The Military Mentality (1947)	285
86	In the Shadow of the Atomic Bomb (1947)	287
87	A Plea for International Understanding (1947)	289
88	Quantum Mechanics and Reality (1948)	291
89	A Reply to the Soviet Scientists (1948)	296
90	Religion and Science: Irreconcilable? (1948)	302
91	Why Socialism? (1949)	305
92	Autobiographical Notes (1949)	312
93	Statement to the Society for Social Responsibility in Science (1950)	353
94	Letter Declining the Presidency of Israel (1952)	354
95	Elementary Considerations on the Interpretation of the Foundations of Quantum Mechanics (1953)	355
96	Recollections–Souvenirs (1955)	361
	Bibliography	369
	Index	375
