

Acknowledgments

Thank you to Albert Hofstadter, Arthur C. Danto, and Justus Buchler; more recently, Carol Feldman and Alison Tannenbaum, not philosophers but helpful readers and correctors. Martin Coleman's help has been the most thorough and valuable. I am pleased to acknowledge David Spiech at the Santayana Edition, who worked on my texts. There are several others who have encouraged me over the years—including Herman Saatkamp, John Lachs, and Peter Hare.
