

List of Abbreviations

The following abbreviations have been used when citing the Dietrich Correspondence, Frank and Christine Dietrich's communications with the author, and the author's interviews with other people. I have not used citations in the notes to the Dietrich Correspondence in order to reduce the length of the book and because the notes contain mostly general information. In most cases, Frank and Christine Dietrich provided the information about the Dietrichs and their family and friends; in a few places, such information was culled from the Dietrich Correspondence or from other sources. In most cases, information contained in the notes comes from sources listed in the bibliography.
