

Fortune and the Cursed

Series: Epistemologies of Healing

General Editors: David Parkin and Elisabeth Hsu: both are at ISCA, Oxford

This series in medical anthropology will publish monographs and collected essays on indigenous (so-called traditional) medical knowledge and practice, alternative and complementary medicine, and ethnobiological studies that relate to health and illness. The emphasis of the series is on the way indigenous epistemologies inform healing, against a background of comparison with other practices, and in recognition of the fluidity between them.
