<b>Introduction</b>	3
<b>1. Kepler's Life and Times</b>	10
<i>Select Biography</i>	10
<i>Kepler's Astronomical Inheritance</i>	18
<i>Kepler's Philosophical Inheritance</i>	32
<b>2. The <i>Mysterium cosmographicum</i> and Kepler's Early Approach to Natural Philosophy</b>	39
<i>The Content of the Mysterium cosmographicum</i>	39
<i>Kepler's Cosmology</i>	48
<i>Kepler's Approach to Natural Philosophy</i>	49
<b>3. Kepler's <i>Apologia</i>: An Early Modern Treatise on Realism</b>	57
<i>Extra-Astronomical Considerations</i>	58
<i>The Nature of Astronomical Hypotheses</i>	60
<i>The Testing of Astronomical Hypotheses</i>	63
<i>Kepler's Improved Notion of Testability</i>	64
<i>Concluding Remarks: The Archetypes</i>	67
<b>4. Kepler's Archetypes and the <i>Astronomia nova</i></b>	69
<i>The Status of Hypotheses in Physical Astronomy</i>	70
<i>The Replacement of the Mean by the True Sun</i>	71
<i>The Vicarious Hypothesis</i>	76
<i>The New Physics</i>	79
<i>Kepler's Second Law</i>	84
<i>Oval Orbits</i>	87
<i>Physical and Geometrical Models of Libration</i>	91
<i>The Ellipse of Chapter 59</i>	95
<i>Concluding Remarks: Archetypes in the Astronomia</i>	97
<b>5. The Aristotelian Kepler</b>	99
<i>The Aristotelian Challenge</i>	99
<i>Physical Astronomy as a Mixed Discipline</i>	103

<i>The Mathematical and the Physical</i>	106
<i>Concluding Remarks</i>	111
<b>6. The Harmonice mundi</b>	112
<i>Kepler and Ptolemy</i>	112
<i>The Essence of Archetypal Mathematics</i>	118
<i>Synopsis of Book V</i>	120
<i>The Influence of Kepler's Harmonies on His Cosmology</i>	136
<b>7. The Epitome astronomiae Copernicanae: Kepler's Mature Physical Astronomy</b>	142
<i>The Nature of Astronomy and Observation</i>	144
<i>Archetypes as a Prerequisite for Physics</i>	146
<i>Book IV and the Archetypes</i>	147
<i>Book V</i>	163
<i>Concluding Remarks</i>	167
<b>Conclusion</b>	
The Fate of Kepler's Philosophical Thought	169
<i>The Threat to the Perfectibility of Astronomy</i>	169
<i>Kepler's Philosophical Legacy</i>	172
<b>Notes</b>	177
<b>Bibliography</b>	191
<b>Index</b>	199
