

## List of Tables

---

2.1	Americans who worked in Ostwald's laboratory	54
2.2	Articles on physical chemistry published in the <i>Journal of the American Chemical Society</i> by five-year periods, 1894–1926	56
2.3	Locations of institutions granting Ph.D.s to productive American physical chemists	73
2.4	Institutions granting Ph.D.s to productive American physical chemists	76
2.5	Employment of productive American physical chemists by sector, 1897–1926	90
2.6	Enrollments in chemistry in 1901, selected schools	95
2.7	Chemists per ten thousand working population, 1870–1970	97
2.8	U.S. college chemistry enrollments by specialty, 1901	97
5.1	The formation of industrial research laboratories, 1890–1930	207
5.2	Movement of productive physical chemists from academic to industrial employment, 1915–1925	216
5.3	Graduate research students in chemistry, 1924–1932	239
6.1	Baccalaureates awarded in chemistry and chemical engineering at MIT by five-year periods, 1885–1934	260
6.2	Postdoctoral study by American physical chemists in Europe, 1920–1929	276
