

Contents

List of Figures	vii
List of Tables	ix
Preface	xi
1. Introduction	1
2. The Evidence for Niche Construction	36
3. A Theoretical Investigation of the Evolutionary Consequences of Niche Construction	116
4. General Qualitative Characteristics of Niche Construction	167
5. Niche Construction and Ecology	194
6. Human Niche Construction, Learning, and Cultural Processes	239
7. Testing Niche Construction 1: Empirical Methods and Predictions for Evolutionary Biology	282
8. Testing Niche Construction 2: Empirical Methods, Theory, and Predictions for Ecology	305
9. Testing Niche Construction 3: Empirical Methods and Predictions for the Human Sciences	337
10. Extended Evolutionary Theory	370
Appendix 1: Model 1a	387
Appendix 2: Model 1b	404

Appendix 3: Model 2	408
Appendix 4: Models 3 and 4	411
Appendix 5: Model 5	415
Glossary of New Terms	419
Bibliography (indexed)	421
Index	457
