

The background of the book cover is a complex collage of scientific and technical illustrations. It features various instruments such as a large circular theodolite or surveying instrument in the upper left, a vertical column with a horizontal arm in the center, and a large circular instrument with multiple arms and scales in the lower half. The color palette is primarily blue and grey, with a prominent horizontal band of orange-red that serves as a background for the title and author's name.

Science and Polity in France
