

Acknowledgments

While my name is on the cover, many people have helped me along the way. I would particularly like to thank William Gould IV and Lee Lowenfish who read portions of an earlier version of the book. They offered invaluable suggestions and undoubtedly made the book you are reading better than it would have been otherwise. Likewise, the anonymous reviewers for SUNY Press offered important recommendations on how to improve the manuscript. I would also like to thank Andrew Zimbalist who offered sound advice on what I should focus on.

Michael Rinella, senior editor at SUNY Press, was incredibly helpful from the beginning and through every stage of the process. Every author should have an editor like him.

Finally, my wholehearted thanks to my beautiful wife Su Lan, for her patience and support, for providing the inspiration to write the book, and for her love that inspires me every day.
