

## ReFocus: The Films of Susanne Bier

## **ReFocus: The International Directors Series**

**Series Editors: Robert Singer and Gary D. Rhodes**

*ReFocus* is a series of contemporary methodological and theoretical approaches to the interdisciplinary analyses and interpretations of international film directors, from the celebrated to the ignored, in direct relationship to their respective culture—its myths, values, and historical precepts—and the broader parameters of international film history and theory. The series provides a forum for introducing a broad spectrum of directors, working in and establishing movements, trends, cycles and genres including those historical, currently popular, or emergent, and in need of critical assessment or reassessment. It ignores no director who created a historical space—either in or outside of the studio system—beginning with the origins of cinema and up to the present. *ReFocus* brings these film directors to a new audience of scholars and general readers of Film Studies.
