

Acknowledgments

I am grateful to Ronald Kim, Margaret Laing, Roger Lass, Donka Minkova, Patrick Stiles, Michael Weiss, and several anonymous readers for helpful feedback on the book proposal and early drafts of this book. I owe a special debt of gratitude to Heinz Giegerich, who asked me to submit the proposal and has been an unfailing source of support and helpful criticism, and to Bettelou Los, who gave me excellent advice about what to include and how to structure its presentation, and who then read the entire draft and suggested numerous improvements. No doubt there are still errors and other shortcomings, but those are mine.
