Acknowledgments

This publication is based on the work of COST Action IS1006 SignGram, supported by COST (European Cooperation in Science and Technology).

COST (European Cooperation in Science and Technology) is a funding agency for research and innovation networks. Our Actions help connect research initiatives across Europe and enable scientists to grow their ideas by sharing them with their peers. This boosts their research, career and innovation.

The Communication Centre for the Deaf and Hard of Hearing, Reykjavík, is thanked for its support to the work of Rannveig Sverrisdóttir and Jóhannes Jónsson. We are also grateful to Chris Beckmann from Göttingen University for his editorial help at the stage of manuscript preparation and to Gemma Barberà, who, next to her scientific contribution to the project, ran its administration exemplarily. Mattia Donati designed for free some drawings that we used as elicitation materials as well as the SignGram Action logo. Thank you Mattia for your generosity!

Monica Dietl, the director of the COST Association, helped the SignGram Action in difficult administrative turns. We thank her for her support.
