International Studies in Social History

General Editor: Marcel van der Linden,

International Institute of Social History, Amsterdam

Published under the auspices of the International Institute of Social History, Amsterdam, this series offers transnational perspectives on labour and working-class history. For a long time, labour historians have been working within national interpretive frameworks. But interest in studies contrasting different national and regional experiences and studying cross-border interactions has been increasing in recent years. This series is designed to act as a forum for these new approaches.
