This series aims to provide a forum for critical studies of the poetry of John Gower and its influence on English and continental literatures during the late Middle Ages and into the present day. Although its main focus is on the single poet, comparative studies which throw new light on Gower, his work and his historical and cultural context are also welcomed.

Proposals or queries should be sent in the first instance to the series editors or to the publisher, at the addresses given below; all submissions will receive prompt and informed consideration.
