

Illustrations

1.1	According to the puzzling bestiary, an eye-to-eye with a wolf would disable either opponent.	8
1.2	Broadside image of the purge of the She-Wolves of Jülich, a glimpse into the surreal Zeitgeist of the late Middle Ages (Georg Kress c. 1591).	9
1.3	Walton Ford, <i>Wolves on the Napoleonic battlefield of Borodino</i> , painting, 2009.	11
1.4	(A) Pieter Brueghel II, <i>The Good Shepherd</i> (1616), with a glimpse into the European cultivated landscape of the Early Modern Era; (B) Maurice Sand, <i>The back-jumping wolf or 'Stoepstaart of Oschaert'</i> , woodcut, 1858.	12
1.5	E G Verboeckhoven, 'Hungry Wolves' (1836).	14
1.6	Modern wolf imagery on the cover of <i>Wild Earth</i> magazine in 1992.	15
2.1	(A) Anti-wolf protest marked on roads in the south-eastern Département of Drôme in France, shortly after the wolves returned to this region; (B) <i>Loup anthropoge</i> (1589), from the memoirs of Jean Burel (Burel 1983); (C) Illustration of the rather grotesque Wolf of Chazes, shot by M. François Antoine de Beauterne and celebrated at the court of Louis XV around 1765; (D) Old and large skull displayed in the Cabinet du Loup of the Musée de la Chasse et de la Nature, Paris.	25
2.2	<i>Petits paysans surpris par un loup</i> (1833) by François Grenier de Saint-Martin, held in the Musée de la Chasse et de la Nature, Paris.	27
2.3	Children were recorded as prime victims of wolf-attributed attacks in historical rural France. Teenage girls such as this lone red-capped ' <i>Bergère avec son troupeau</i> ' in the painting by François Millet (1863) would have been particularly vulnerable.	29
2.4	Lithograph (1845) by F Grenier, illustrating wolves boldly entering a settlement	31
2.5	<i>Chasse au Loup</i> , by Pierre Duval Le Camus (1836).	31
2.6	Medieval wolf-beast sculpture in the door beam of a house in the centre of Autun in Burgundy.	32
3.1	Map showing licenses to hunt wolves, hares, foxes, badgers and wildcats granted in medieval England (1199–1399).	41
4.1	<i>The wolf of Ansbach hanging on a gallows</i> (unknown artist, 1685).	48
4.2	<i>Úlfhéðnar</i> warrior following Odin, copy from a Torslunda plate found in Öland, Sweden (Oscar Montelius 1905).	53

5.1	'Russian Performing Wolves at the Westminster Aquarium', 1887.	60
5.2	'Orloff, a wolf with six human fingers to his "credit", who would have attacked Mr Steuart if he had not been defended by Lassie; and Lassie with Mr Steuart – all, now, on the best of terms', 1934.	63
5.3	'London Zoo keeper Mr Aldridge brushing a prairie wolf', 1938.	64
5.4	'Wolves at the Zoological Gardens', 1873.	65
6.1	Nazi saluting wolf statues.	73
6.2	T-shirt Indian images in a Cumbrian market.	74
12.1	The two wolf livestock predation study areas in south-eastern France, with some terrain features.	133
12.2	Thermal image of a wolf clearly investigating a sheep flock or WIPA event.	135
12.3	Further classification of observed wolf NIPA and WIPA events (N = 530). Wolf predatory modes towards livestock.	138
12.4	Differentiation of observed wolf attacks (unsuccessful versus lethal) on sheep flock formations and isolated sheep.	138
12.5	Dynamics of a wolf attack recorded with a thermal camera.	140
12.6	Model of integrative and strategic livestock herd protection.	142
13.1	Core and periphery of a social representation.	146
14.1	Drawing of a captive Japanese wolf by Dutch artist Carl Hubert de Villeneuve (1800–74).	152
14.2	Title page of <i>Esopo no fabulas. Latinuo vaxite Nippon no cuchito nasu mono nari</i> ('The fables of Aesop, translated from Latin into Japanese'). Printed in 1593.	154
14.3	Illustration to the Wolf and Dog fable (<i>De lupo et cane</i>) in Sebastian Brant's <i>Esopus</i> (Basel 1501).	154
15.1	Photographs of wild dingoes residing in the alpine region of south-eastern Australia highlighting the range of coat colour and patterns.	162
15.2	Phylogenetic tree based on 7607 ancestry informative single nucleotide polymorphism (SNP) sites.	166
17.1	Illustration from Topsell's <i>The History of Four-footed Beasts</i> .	195
18.1	A north-eastern coyote with dog-like traits in Massachusetts.	207
18.2	A north-eastern coyote in The Bronx, New York City.	209
18.3	A north-eastern coyote-dog hybrid in Queens, New York City.	211

19.1	Red wolf historic range.	218
19.2	The Albemarle Peninsula.	219
19.3	Red wolf v. Coyote.	220
21.1	Greeting Mastiffs on a soggy Picos de Europa mountain col.	241
23.1	The Greater Voyageurs Ecosystem has supported a dense beaver population for decades.	261
23.2	The percentage of beaver in wolf diet biomass in the Greater Voyageurs Ecosystem, Minnesota, estimated via scat-based diet analysis.	262
23.3	Percentage difference in wolf ambushing rates (attempts per day) and kill rates (kills per day) of beavers for pairs of wolves from the same pack.	263
23.4	The similarity in where individual wolves waited in ambush for beavers in relation to: (A) distance from fresh beaver activity; (B) distance from water; and (C) wind direction.	265
23.5	The fate of ponds created by dispersing beaver in the Greater Voyageurs Ecosystem, Minnesota.	269
24.1	Occurrence of wolves in Germany for monitoring year 2020/21 with black dots marking reproductive areas.	274
24.2	Pups of the Herzlake pack returning from a nightly foray in mid-August 2020. The lead pup in this picture, named 'Kai', was a particularly inquisitive individual.	276
24.3	Aspects of wolf ecology (including ranging, denning and feeding and prey ecology) gained so far through many hours of field work and craft.	277
24.4	Hunting trail of the Herzlake wolf family and the last outing of the young she-wolf 'Ismeralda'.	279
24.5	Sheep protected by electric fencing together with livestock guarding dogs, near Schermbeck in North Rhine-Westphalia.	282
27.1	An early morning encounter.	317
27.2	Wolf pups caught on camera trap.	318
27.3	Wolf prints in bog.	319
27.4	Wolf kill, Belgium.	319
27.5	Wolf fetus, Leibniz Institute for Zoo and Wildlife Research, Berlin.	320
27.6	Dead wolf storage unit, IZW.	321
27.7	Wolf scan.	321
27.8	Taxidermy as research.	322
27.9	Wolf education.	323
27.10	Keeping wolves from the sheep.	324
27.11	Helicopter view of the wolf hub on the Dutch Veluwe.	324
27.12	Of wolves and wolf people.	325

30.1	<i>Cumbrian Alchemy</i> : Wolf and Boar Vitrine.	349
30.2	Drawing: <i>Ulpha Marks the Land</i> . Ink and watercolour on paper.	351
30.3	Drawing: <i>Wolves and the Reactor</i> . Ink and watercolour on paper.	351
30.4	<i>The Atomic Priest at Castlerigg</i> .	353
30.5	The <i>Atomic Priest</i> at Long Meg, Mayburgh Henge and King Arthur's Round Table.	354
30.6	The Heysham Hogback Stone, St Peter's Church. Sigmundr side.	355
30.7	The Heysham Hogback Stone, St Peter's Church. Detail: Wolves and Völsungs: the death of the she-wolf.	355
30.8	<i>Cumbrian Alchemy</i> : Detail: Wolf and Boar Vitrine.	357
30.9	Wolf, 19th-century print, scan from original from Charles Knight (ed.).	358
31.1	High Loup, Mardale Common.	364
31.2	Sheep gathering at Haweswater.	367
31.3	A 'wolf collar' on display at the Musée Cévenol, Le Vigan, France.	368
32.1	Helsfell wolf prior to cleaning and in its Victorian articulation.	372
32.2	Helsfell wolf after cleaning and conservation.	373
32.3	Helsfell wolf skull.	375
