  - Identify Potential Capital Sources — 130
  - Guiding Principles for Contacting Potential Investors — 132
  - Structure Capital Offering(s) — 133
  - Manage the Capital Campaign — 136

## **Chapter 7**

### **The Future of Technology Development — 138**

- Critical Technology Development Needs — 138
- Capital Sourcing Challenges — 145
- Evaluation of Technology — 146
- Use of Capital — 148
- Scarce Supply of Capital for Small Business — 150
- Accountability — 151
- Patience — 152

**Chapter 8****Where Do We Go from Here? — 153**

Reducing the Influence of Academics and Higher Education — 154

Strengthening Review of Government Technology Development  
Programs — 156

Specifically Requiring Statistically Valid Review — 157

Encouraging Small, Primary Investments Directly in Small Businesses — 158

Graduated Capital Gains Tax — 158

Capital Gains Tax on Non-profits — 159

Phasing Out Tax-Exempt Status for All Non-profits — 159

Phasing in Strict Financial Reporting for All Non-profits — 160

Reforming All of Education to Make It Eventually Competitive,  
For-profit — 161

Requiring Grade – Appropriate Probability and Statistics Curricula — 162

Requiring Appropriate Field Proficiency Probability and Statistics STEM  
and Professions — 162

Deregulating Crowdfunding for Small, Technology Development  
Companies — 163

**Chapter 9****Some Final Words — 164**

To the Executive — 164

To the Technologist — 164

To the Investor/Stakeholder — 165

To the Citizen — 166

**Bibliography — 169****Index — 171**
