This book goes back to a conference held at the Herzog August Bibliothek, Wolfenbüttel, in April 2017 on “The Production of genealogical knowledge in pre-modern times”. We gratefully acknowledge support from the Deutsche Forschungsgemeinschaft and the Herzog August Bibliothek. Many of the papers presented at Wolfenbüttel were expanded into essays and are contained in this volume, while a few additional pieces have been commissioned. Cosima Schwarke did most of the copy-editing, while Peter Pritchard polished the English of the many non-native authors.
