

Contents

Preface — V

List of contributors — XIII

Editors' biographies — XVII

Part I: Introduction and Material

Divya Zindani, Kaushik Kumar, J. Paulo Davim

1 An insight into plant-based biodegradable composites — 3

M.I.J. Ibrahim, S.M. Sapuan, E.S. Zainudin, M.Y.M. Zuhri, Ahmed Edhirej

**2 Corn (maize) – its fibers, polymers, composites, and applications:
A review — 13**

Part II: Manufacturing and Properties

Opeoluwa R. Dada, Kamardeen O. Abdulrahman, Esther T. Akinlabi

**3 Production of Biodegradable Composites from Agricultural Waste:
A Review — 39**

Fatima-Zahra Semlali Aouragh Hassani, Wafa Ouarhim, Nadia Zari,
Rachid Bouhfid, Abou el kacem Qaiss

**4 Natural fiber-based biocomposites: Effect of orientation on mechanical
properties — 49**

Damenortey R. Akwada, Esther T. Akinlabi

**5 Mechanical properties of bamboo yarn: A biodegradable composite
material for structural works — 81**

Swaroop Gharde, Rajendra Goud, Sunil Nimje, Balasubramanian
Kandasubramanian

**6 Aggrandized flexural properties of assorted natural biological
materials — 111**

Wafa Ouarhim, Mohammed Ouadi Bensalah, Abou el kacem Qaiss,
Rachid Bouhfid

- 7 Hygrothermoelastic behaviour Natural fibers based composites:
Mechanisms and formalism — 141**

Part III: Machining and Application

Rahul Kumar, Sumit Bhowmik, Rahul Jayasval

- 8 Influence of drilling parameters on the thrust force and mechanical
properties of biodegradable particleboard composite panels: A review — 167**

Vivek Kumar Gaba, Anil Kumar Tiwari, Shubhankar Bhowmick

- 9 A numerical study of rotating functionally graded annular fin — 183**

Index — 193
