Preface — V

About the editors — XI

List of contributors — XIII

Abhishek Kumar Pandey, Ashutosh Tripathi, Alka Agrawal, Rajeev Kumar,
Raees Ahmad Khan

- 1 Selecting and assessing the importance of malware analysis methods for web-based biomedical services through fuzzy-based decision-making procedure — 1**

Jimmy Singla, Balwinder Kaur

- 2 A medical intelligent system for diagnosis of chronic kidney disease using adaptive neuro-fuzzy inference system — 19**

Rahul Malik, Sagar Pande, Bharat Bhushan, Aditya Khamparia

- 3 Contrast enhancement approach for satellite images using hybrid fusion technique and artificial bee colony optimization — 33**

Gunturu Harika, Arun Malik, Isha Batra

- 4 Role of intelligent IoT applications in fog computing — 55**

Reeta Bhardwaj, Harpreet Kaur, Rajeev Kumar

- 5 Energy-efficient routing employing neural networks along with vector-based pipeline in underwater wireless sensor networks — 71**

D. K. Mishra, Vikas Shinde

- 6 A review of global optimization problems using meta-heuristic algorithm — 87**

Poonam Kumari, Amit Kumar Mishra, Vivek Sharma, Ramakant Bhardwaj

- 7 Secure indexing and storage of big data — 107**

Vishal Sahu, Amit Kumar Mishra, Vivek Sharma, Ramakant Bhardwaj

- 8 Genetic algorithm and normalized text feature based document classification — 123**

Pratyush Shukla, Sanjay Kumar Singh, Aditya Khamparia, Anjali Goyal

9 Nature-inspired optimization techniques — 137

Index — 153
